

BOOK REVIEW

JLPT Reading
日本語能力試験 読読 スリーエーエフ

Reading N3

New KANZEN Master Series
新完全マスター読解 N3

By TASHIRO Hitomi, MIYATA Shoko and
ARAMAKI Tomoko

Publisher: 3A Corporation
ISBN: 978-488319-671-5

The book consists of 2 sections, namely

1. Skills Development
 - Written Japanese/ Speed Reading
 - Reading different kinds of text
 - Non-linear texts
 - Exam-type questions
2. Mock Tests

'Reading comprehension is perhaps the most challenging part in the JLPT for most learners. Not only learners have to fight with time, they also need to have a good foundation of the grammar, a wide repertoire of vocabularies as well as some guessing skills.

This book not only introduces a variety of linear and non linear text ranging from short to medium and long passages, but also familiarise students with written Japanese styles and formats, how to skim and scan to increase reading speed and accuracy. The book even suggest how much time to spend for the different passage length and provides exam-type questions to familiarise readers with the test.

Definitely a good reference book to brush up your reading comprehension skills.
